2010 SUSTAINABILITY REVIEW APPROVED

Ansaldo STS is pursuing its goals for sustainable growth and, following on from the first sustainability report published in 2009, the current Board of Directors, meeting under Chairman Alessandro Pansa, has approved the 2010 sustainability review, the first certified by PricewaterhouseCoopers SpA.

Ansaldo STS's commitment to the theme of sustainable development is expressed, in countries where it operates across five continents, through the dissemination of a corporate vision, attention to environmental, social, and promote their work through a climate of cooperation with local cultures.

In line with this vision, Ansaldo STS has joined the UN Global Compact, a voluntary initiative launched by the UN to spread a culture of respect in the areas of human rights, labour, the environment and the fight against corruption.

The approval of the 2010 sustainability review therefore represents an additional commitment that the Board of Directors and the company's management will continue to uphold in the future.

The final version of the review will be published on the occasion of the next shareholders' meeting.
