## **Ansaldo STS awarded EUR 82 million contract to implement High Speed/High Capacity Treviglio – Brescia railway line**

Ansaldo STS (STS.MI), a Finmeccanica Company, in quality of consortium partner of Consorzio Saturno, has received by the Italian Railway Network (RFI) the assignment to carry out part of the technological works on the High-Speed / High-Capacity railway line under construction, between the stations of Treviglio and Brescia.

The total amount of the works entrusted to Ansaldo STS equals EUR 82 million, on a total of EUR 176 million for the Consorzio.

Among the works entrusted to the Consorzio, Ansaldo STS has the duty of designing, building, installing and putting into service the signalling (level 2 ERTMS/ETCS and Multi-station) and automation installations (High-Speed SCC) on a 57-km-long railway line.

Furthermore, Ansaldo STS is directly responsible for designing, building, installing and putting into service the electrical substations, parallel positions and some data management installations for the electrical traction and for air-conditioning. Finally, they'll take care of the air-conditioning, ventilation and heating installations for the new technological buildings.

After recently winning the tender for the Brescia Central station's computer-based interlocking system (ACC), Ansaldo STS will carry out, through this contract, all the main works entrusted by the Italian Railway Network in the area of the railway reorganisation on the Turin-Padua main transversal railway line, which is part of the D interoperable corridor, defined as a priority by the European Community.

Ansaldo STS, listed on the Italian Stock Exchange, is an international leading technology company that supplies transport solutions and signalling technology in the global Railway & Mass Transit Transportation business with the provision of traffic management, planning, train control and signalling systems and services. It acts as lead contractor and turnkey provider on major project worldwide. Ansaldo STS is headquartered in Genoa, Italy, and employs over 4,100 people in 28 different countries. In 2011, its revenues reached € 1,212 M, with a gross operating margin of € 116 M and net profit of € 73 M.
