

HEALTH AND SAFETY POLICY

The Health and Safety policy of Hitachi Rail STS is based on the application of the requirements of the standard OHSAS 18001:2007 and any other relevant rules applied at international level. Hitachi Rail STS HSE policy is fully compliant with the applicable national and international regulations and it is oriented to the continuous enhancement of health and safety standards.

Hitachi Rail STS is committed to:

- ensure and maintain a healthy and safe working environment, to prevent accidents, illnesses or damages to the health of employees, suppliers, customers and visitors;
- extend the OHSAS 18001 certification to all the sites of the Hitachi Rail STS Group, continuously improving the effectiveness of the Safety and Health Management System at workplace;
- continuously enhance the performances not only in terms of prevention of accidents and occupational diseases, but also as regards the general well-being of the workers;
- adopt, for all of the risks linked to the working activity, assessment criteria which, in compliance with national and international laws in force, also take account of best practices;
- increase training and information activities for all workers, with the aim of increasing their awareness of the risks connected to their activity;
- continue to develop activities in support of the spreading of a safety culture vis-à-vis all the suppliers and parties involved.

Hitachi Rail STS mission is fully compliant with health and safety at work standards and is developed and maintained in the light of continuous improvement. In this way, Hitachi Rail STS aims to be recognized among the best companies for employee's health and safety policy.

June 2019

Andy Barr
